CHESTERFIELD TOWNSHIP SCHOOL DISTRICT

Chesterfield, New Jersey 08515

APPROVED BUDGET PLAN FOR ADDITIONAL STATE FUNDING July 2018

The plan below is based on the additional state funding of \$1,541,532.

CURRICULUM & INSTRUCTION		
BUDGET ITEM	DESCRIPTION	COST
Special Education Teacher	The district currently needs an additional SE teacher to service our current population of students requiring services. The additional SE teacher will also allow time in schedules to service students who are newly classified during the school year or move into district with an IEP. Our goal is to create teacher schedules that maximize the strengths of the special services faculty while also providing time for collaboration between teachers.	\$95,637
General Education Teacher	Our BSI Program has slowly lost instructional time over the last few years due to the need to utilize our BSI teachers who are dual certified to help support students who require special services. The district needs to increase the instructional time for students receiving BSI services requiring short and long term interventions.	\$95,637
Gifted &Talented Teacher (.5)	As we work to improve our G&T program, there is a need to provide more opportunities to our students who are currently in the G&T Program as well as expand the G&T Program to provide opportunities to all students.	\$28,319
Instructional Coaches	As our district continues to work to improve our academic programs and classroom instruction, instructional coaches are able to provide valuable, consistent support to our teaching staff. Coaches are not administrators, and will focus on improving instruction in the classroom within our core content areas. They will work closely with the Supervisor of Curriculum and Instruction in supporting the teaching staff.	\$193,730
Music Teacher (.5)	To provide more instructional opportunities to our instrumental program and to develop a choral program, we must add instructional time. Increasing our music department staff will allow us to provide more time for instrumental instruction (small group instruction) and start a choral program.	\$28,319
C&I Secretary	As the district has grown, so has our staff. Four years ago when the C&I position was split with the Special Services position, there was no change in the secretarial staff. Providing a secretary for the C&I department will provide much needed support to C&I which is the cornerstone of everything we do. This figure is based on a P/T position not to exceed 73% FTE or 26.5 hours per week.	\$25,518
School Counselor	As a school of 750+ students, there is a need for counseling services and one F/T counselor is not enough for this size school. Our enrollment dictates a need for an additional F/T school counselor.	\$95,637
Library Aide	Reinstate library aide position.	\$9,654

TOTAL		\$981,871
Education	character education.	
Character	funding may be needed to further this initiative and a connection with	
Discipline Plan &	As the District Discipline Committee works to finalize a plan for the future,	\$12,000
PD	As we move to improve programs and improve instruction, additional money will be needed to fund professional development opportunities.	\$25,000
	government/advisor, teacher supplies, etc.	
Resources	programs resources, library books, teacher appreciation, student	
Supplies &	purchasing specific genre of texts for book study, G&T supplies, instructional	
Curriculum	This is a general budget item that includes building classroom libraries,	\$65,000
Nights	classroom.	
Parent/Family	teachers to expose parents to instructional activities that take place in the	<i>+0,7</i> 20
Curriculum	A curriculum parent/family night is a content specific night led by classroom	\$3,728
	Other possibilities include a content specific remedial program or STEM opportunities. A school play would also fall under this category.	
	hours. For example, the Science Olympiad Team would fall under this area.	
School Programs	the district will move to add programs that are held outside of regular school	
Before/After	In an effort to expand remedial and enrichment programs for our students,	\$19,600
nteractive Boards	all classrooms. This figure is based on a three-year replacement plan.	
Classroom	devices. We must replace this technology as it is a part of daily instruction in	
Replace	Our current Eno Boards are failing and parts are no longer sold for these	\$88,000
	this point, we need 15 additional access points and a server.	
nfrastructure	our infrastructure is able to provide the service to our students and staff. At	-
Technology	As we increase the number of devices in the building, we also need to ensure	\$16,000
	development/training for administrators and teachers.	
	classroom where the piloting will take place and the cost of professional	
nitiative – Year 1	in grades 5 and 6. This will require a class set of Chromebooks for each	
1:1 Technology	In the first year of the new technology plan, we will be piloting a 1:1 initiative	\$98,500
studies Program	include a new program.	
New Social Studies Program	The district is in need of revising the social studies curriculum which may	\$60,000

	curriculum development.	
Summer Work	The district has several initiatives which require summer planning and	\$21,592

BUDGET ITEM	DESCRIPTION	COST
Replace Cafeteria	Our current tables are breaking which causes a safety risk. We need to	\$34,000
Fables	replace our tables. This figure represents a three-year replacement plan.	
Geo Thermal Vault	We need to properly address this issue before it becomes a situation where	\$38,000
Repair	the vault needs to be replaced.	
IVAC/ERV Units	Our ERVs in our HVAC units are not working. The ERVs regulate the amount	\$16,232
Repair	of fresh air being drawn into the system.	
Jpgrade Security	Our current system software is outdated and in need of replacement.	\$75,000
	Additionally, our original cameras are all analog which need to be replaced with digital cameras. This figure represents a multi-year replacement plan.	
LED Lighting	We are approaching the life expectancy of our lightbulbs/ballasts.	\$32,000
	Transitioning to LED lights will more than double the life expectancy of the	
	lighting and save us at least 50% in electricity costs. This figure represents a	
Brick Work	two-year replacement plan. The brick walkway in the front of the school was never properly sealed and	\$35,000
Repair/Bike Racks	needs to be repaired or replaced with cement. Additionally, our bike rack	<i>+)</i>
	area does not hold all our student bikes and there is a need to provide additional space for student bikes.	
Maintenance	Maintenance reserve can be used in future years for unexpected projects that	\$314,429
Reserve	need to be addressed.	
School Safety	As the pipeline becomes active, the school will need to maintain a focus on	\$10,000
(Pipeline)	ensuring the school is safe. Funding is needed to monitor the situation	
	through testing and possibly air quality filtration.	
Long Range	As we've seen our building begin to have repair issues, we should invest in a	\$5,000
Facilities Plan	long range facilities plan.
